

TALK A LITTLE (capo 2)

G C  
Morning feels like a week ago  
G D  
We kissed our goodbyes and the madness began  
G C  
You held up your hands to keep off the rain  
G D G  
I lowered my head and ran

G C  
This morning took me a thousand miles away  
G D  
A 10AM flight for the coast  
G C  
Knowing you're waiting at the end of the day  
G D G  
Is the thought I'm loving the most

G C G  
We can talk a little hold hands by the fire  
D C G  
You can tell me you love me you know I'll smile  
C G  
We can stand close together look out at the rain  
D C G  
You can tell me a secret I'll laugh at that game

(solo)

G C  
It's funny how quickly the time can pass

G D  
Ten years can seem just like yesterday

G C  
As we got busy building our lives

G D G  
We turned around and time ran away

G C  
Soon we'll find ourselves all alone

G D  
The word empty nest makes it all seem so cold

G C  
Your hand on my shoulder tells me everything's fine

G D G  
And it's a long way until we grow old

G C G  
We can talk a little hold hands by the fire

D C G  
You can tell me you love me you know I'll smile

C G  
We can stand close together look out at the rain

D C G  
You can tell me a secret I'll laugh at that game

G C G  
When we've talked a little you'll hold my hand

D C G  
You'll tell me your dreams and I'll understand

C G  
You'll say thank you my darling for sharing my life

D C G  
I'll say it's been such an honor to call you my wife
